

/// Oyster 87 Series

The iLumen 87 Series oyster lights feature a modern frameless design that delivers uniform, soft illumination with a wide beam angle suitable for a variety of spaces. The range is available in two physical sizes and offered in both round and square formats to suit diverse application requirements. High colour rendering (CRI) ensures excellent light quality, while a comprehensive selection of smart driver options is available, including integrated sensor and emergency configurations. Ideal for both commercial and residential applications, the iLumen 87 Series provides clarity, efficiency, and visual comfort in every environment.
